

II INTERNATIONAL PHYTOPLASMA WORKSHOP

HAVANA, CUBA, 22-26th, 2008

Organizers

Dr Yaima Arocha Rosete, Cuba

Prof. Assunta Bertaccini, Italy

Celebrated at the Convention Palace, next to Palco Hotel, in Havana, Cuba, the II International Phytoplasma Workshop was officially attended for more than 30 participants from 16 countries from Europe, Asia, and Latin America and the Caribbean.

A total of 19 oral presentations and 17 posters were presented from Italy, United Kingdom, Greece, Germany, Czech Republic, Serbia, Oman, Saudi Arabia, Japan, Canada, Jamaica, Mexico, Colombia, Chile, Argentina, Brazil, and Cuba.

A number of topics were discussed related to phytoplasma diseases and climate change, phytoplasma-plant-vector interactions, comparative genomics, phytoplasma plant resistance, seed transmission, development of new molecular diagnostics, phytoplasma vectors, and an updating on phytoplasma situation of different countries worldwide, combined with field trips and visits to Cuban plant research institutions. In addition the Latin American and Caribbean Phytoplasma Network was officially launched and conformed, linked to IPWG.
